Company: Brussels Airlines

Location: Machelen

Category: other-general

About Brussels Airlines

Brussels Airlines, part of the Lufthansa Group, is the national airline of Belgium with its home base at Brussels Airport. Our mission is to be the most reliable airline, making everyone feel at home. We are passionate about what we do, whether it's on board, in an office, in the hangar or at an airport. Our people are recognized for always going above and beyond and for constantly challenging themselves.

Purpose of the position

The Aircraft Cabin Technician is part of a team that delivers high quality cabin maintenance work within the EASA part 145 and BA approved scope and guidelines.

Main tasks & responsibilities:

The Aircraft Cabin Technician will quickly learn cabin maintenance activities and develop at least 2 of the following specialties:

cabin line maintenance, epoxy and 'tedlar' works

repair of aircraft seats

aircraft cabin removal/installation (e.g. sidewall panels, floor panels, bins, seats, ceilings, toilets, galley's, linings)

painting of cabin and aircraft parts according to the manufacturer's specs sheets

He/she assists in base maintenance and line maintenance to avoid cabin related

discrepancies in accordance with the manufacturer approved maintenance data

He/she assists in cabin shop activities to ensure a clean and perfect cabin for our guests. This entails working on parts such as sidewall panels, floor panels, bins, seats, ceilings, toilets, galley's, linings, etc.

He/she shares responsibility for the administration in accordance with the Brussels Airlines scope and EASA 145 rules

He/she ensures that level of the cabin shop meets the EASA 145 requirements by guarding cleanliness, tools, equipment and stock

Your profile

Higher secondary education with a technical focus

Proven relevant experience

Dutch/French and a strong level of technical English
