Analytics Engineer

Company: Viroclinics Biosciences

Location: Ghent

Category: computer-and-mathematical

ANALYTICS ENGINEER; WHAT YOU WILL BE DOING

Develop and optimize analytics solutions, focusing on data modelling, transformation, and BI development using SQL, dbt, Power BI, and Azure Databricks.

Design and implement scalable ETL processes and data transformation workflows with SQL in dbt, facilitating seamless data integration and enhancing data quality and consistency across platforms.

Create dynamic dashboards and reports using Power BI to provide deep insights and support strategic decision-making.

Act as a key educator within the team, promoting best practices in data transformation and analytics development and mentoring team members on effectively using dbt, Azure Databricks, and Power BI.

Maintain strict compliance with GDPR and data security standards, ensuring all development efforts handle data securely and responsibly.

THE IDEAL PROFILE

You have a Bachelor's or master's degree in IT, Computer Science, or related field.

Experience in developing analytics and BI solutions, with proficiency in SQL, dbt, Power BI and Azure Databricks.

Expertise in data modelling, ETL process development, and implementing data

transformation workflows using dbt.

Strong problem-solving skills, focusing on innovative solutions to complex data challenges.

WHO ARE WE

Cerba Research provides the highest quality specialized laboratory and diagnostic solutions while leveraging patient data and scientific insight to shape and advance clinical trials. With our global footprint and access to leading regional labs, data, patients, technology, and partnered resources, we support global biotech, pharma, and IVD organizations to improve the lives of patients around the world.

Working at Cerba Research first of all means that you contribute to improve global health. It also means growing your career in a dynamic, fast paced environment, where you can develop new skills and work on diverse projects. There is plenty of room for initiatives, we encourage you to take ownership, cooperate, keep learning and most and for all, have fun! Learn more about our organization and company culture by talking to one of our recruiters!

If this sounds like you, we like to get to know you. Please apply
