Automation Engineer (Brussels)

Apply Now

Company: TMC

Location: Belgium

Category: computer-and-mathematical

As an Automation Engineer at TMC, you will team up with your co-workers to design and implement automation solutions for challenging projects. And ensure the safety of infrastructure users for clients

You will take part in the following challenges:

Developing and implementing SCADA-based solutions: prepping them in a lab environment, installing and commissioning them on-site, and providing User and Admin training sessions. You'll identify, log, describe, escalate, and follow up on issues. And provide documentation for the installation built (As-Built/User Manual).

Listening to and understanding clients' expectations, communicating with the client, and understanding the daily operations of the automation system.

Documenting designs and optimizing them in collaboration with the client.

Participating in test set-ups for demo, exposition, and/or product validation.

Updating post-intervention site documentation (software release, installed base…)

Come analyze clients' user requirements and create the most suitable technical solution for the job. At the same time, you and your colleagues will be responsible for first-line corrective maintenance within the SCADA software.

| **What do we expect from you?**

You're an Industrial Engineer specializing in automation or have proven experience to match that degree.

You have a minimum of 5 years of professional automation experience (think SCADA and PLC programming).

Good knowledge of GUI software development in a Windows environment (.NET, XAML).

Good knowledge of object-oriented programming.

Knowledge of Windows server management, MSSQL, and networking technology is a big plus

You are fluent in Dutch and English, knowledge of French is a plus

You have good communication skills.

You're an analytical, open-minded, and flexible team player.

You can work autonomously and are eager to learn and innovate.

When a problem needs solving, you're the one everyone calls.

| What can you expect from TMC?

TMC is an international high-tech consultancy company that brings expertise to its clients in order to support them with the realization of their technological challenges. As such, TMC operates as an expert center at the disposition of its clients, and we help them to be more competitive in an ever more global and faster-changing technological world.

At TMC we believe that people are the driving force behind technological innovation. That is why we want to create the best possible conditions for tech talents to thrive in. We offer you a challenging and stimulating work environment in which you can be the director of your own career.

As an Employeneur you are part of our TMC family. Next to our outstanding technical expertise, fun and engagement are meaningful parts of our culture.

| Why choose for Employeneurship?

We are truly unique thanks to our Employeneurship model which is a true innovation for the High Technology consulting business. It is the business relationship of the 21st century for highly skilled technical professionals. It is built around 5 main pillars:

You will have a permanent employment contract, offering you stability and security

You will get to know your market value and have a share in the profit your work generates thanks to the individual profit sharing

We will support you with one-on-one coaching and training designed to help you develop your entrepreneurial skills

The competence cells structure provides you with a strong meaningful and relevant network

The entrepreneurial lab: a playground for new ideas and a potential launching for start-ups

TMC is an equal opportunity employer and values diversity. We do not discriminate on the basis of race, religion, color, national origin, gender, sexual orientation, age, marital status, veteran status, or disability status.
