

AUTOMATION ENGINEER – LIFE SCIENCES

[Apply Now](#)

Company: TMC

Location: Belgium

Category: computer-and-mathematical

You are in charge of the project scope evaluation

You prepare planning and budget and draw up the (functional) specifications

You conduct technical discussions with suppliers/integrators and requesting & evaluating quotations

You coordinate and follow up with the contractors

You draw up test protocols and coordinate testing and commissioning

You prepare the necessary MOC documents (URS/IQ/OQ)

You draw up and update the functional descriptions and qualification status of the automation systems

You strive for standardization and uniformity across the various installations

You manage, develop and update procedures with regard to the automation systems

You participate in process safety studies (HAZOP/LOPA) related to your projects and modifications

You work closely with various internal departments (Production, Maintenance, SHE, QA, ICT, ...).

| What do we expect from you?

You have a Master's degree in Industrial Engineering - Electromechanics with a specialization in Automation (or equivalent through experience).

You have relevant experience in automation projects within the process industry (chemistry, petrochemistry, food, pharmacy,...).

You have knowledge of one or more automation systems: PCS7, Win CC, Yokogawa Centum and Emerson Delta V.

You can express yourself fluently in Dutch and English.

You can independently organize and lead projects.

You are meticulous and punctual, both in technical implementation and in administrative tasks.

| What can you expect from TMC?

TMC is an international high-tech consultancy company that brings expertise to its clients in order to support them with the realization of their technological challenges. As such, TMC is operating as an expert center at the disposition of its clients and we help them to be more competitive in an ever more global and faster-changing technological world.

At TMC we believe that people are the driving force behind technological innovation. That is why we want to create the best possible conditions for tech talents to thrive in. We offer you a challenging and stimulating work environment in which you can be the director of your own career.

As an Employeneur you are part of our TMC family. Next to our outstanding technical expertise, fun and engagement are meaningful parts of our culture.

| Why choose for Employeneurship?

We are truly unique thanks to our Employeneurship model which is a true innovation for the High Technology consulting business. It is the business relationship of the 21st century for highly skilled technical professionals. It is built around 5 main pillars:

You will have a permanent employment contract, offering you stability and security

You will get to know your market value and have a share in the profit your work generates thanks to the individual profit sharing

We will support you with one-on-one coaching and training designed to help you develop your

entrepreneurial skills

The competence cells structure provides you with a strong meaningful and relevant network

The entrepreneurial lab: a playground for new ideas and a potential launching for start-ups

TMC is an equal opportunity employer and values diversity. We do not discriminate on the basis of race, religion, color, national origin, gender, sexual orientation, age, marital status, veteran status, or disability status.
