

Automation Manager

[Apply Now](#)

Company: ECS European Containers

Location: Brussels

Category: other-general

You have a passion for automation and wish to work in an innovative environment. As Automation manager, you are responsible for all automation and related maintenance. The focus is on innovation in the field of digitalization and automation on the one hand, and on day-to-day operations and coaching your team on the other.

Your role and responsibilities

You are responsible for the automation team spread over several automated warehouses and bear ultimate responsibility for performance

You ensure that the maintenance of the cranes is carried out at the right times

You follow up the weekly and monthly KPIs

You manage the budget and think critically about the needs

You provide the automation team with the necessary training to ensure compliance with safety regulations

You have a finger on the pulse mentality and closely monitor your team's weekly planning and leave arrangements

On a regular basis, you consult with the warehouse managers about possible improvements in both the short and long term

You promote and stimulate cleanliness and safety on the work floor

You strive for continuous service improvement in cooperation with the IT-OT manager (support, updates, contracts, etc.), in which cooperation with the service desk and IT Systems is very important

You initiate improvement processes within the warehouse to improve productivity

You are responsible for complying with the procedures described in the various ISO & IFS standards related to the site

Your profile

You have a Master's degree in Industrial Sciences (Electromechanics, IT, Automation, etc.) or similar through experience in PLC programming

You have at least 3-5 years' experience as a manager in an environment with automation and digitalization

You have experience in the FMCG sector

You are a real people manager and have a hands-on mentality

You have a healthy dose of assertiveness and combine this with excellent communication skills

You are efficient and result-oriented

You are strong in planning and organizing

You take initiative and enjoy a challenge
