Job Description

Our client, a global IT Services company, is looking for an **AUTOMATION TECHNICAL ARCHITECT**

As a Technical Architect, your focussed responsibilities will be to serve as recognised subject matter expert and thought leader with **deep expertise in infrastructure automation**.

You will leverage that expertise to perform consulting engagements, participate in presales activities (where appropriate), act as a trusted advisor to clients and ensure technical end-to-end coherence in the project delivery phase.

You will operate in both smaller and more complex environments, combining your knowledge of infrastructure elements together with the automation software landscape .

Requirements

At least 10 years' experience in infrastructure architecture or related business.

Strong knowledge in the design, deployment, and support of large automation deployments.

You love maintaining a helicopter view on the whole infrastructure, from networking aspects to cloud computing and serverless functions with a continuous focus on security.

Knowledge of **automation technologies like Terraform, Ansible, Jenkins** .

A good understanding of the cloud landscape (Azure, AWS, GCP) and their respective automation tools and API's.

You have a good understanding of software development and can translate their needs into an

automated infrastructure that follows DevOps best practices. This includes knowledge in automating and optimizing environments by managing infrastructure through code (Infrastructure as Code) and implementing Continuous Integration/Continuous Deployment (CI/CD) pipelines.

Knowledge of deploying, scaling, securing and managing containerized applications.

Good business acumen allowing identification of business opportunities and our clients' business needs, and delivery of consultative engagements in line with these.

Strong knowledge of industry technologies and willingness to further maintain and broaden this knowledge.

French or Dutch as mother tongue and good verbal and written knowledge of the other language as well as **English** .

Eligible and prepared to obtain NATO clearance if necessary

If you are not FLUENT in FRENCH or DUTCH, don't apply
