

Azure Data Engineer F/M/X

[Apply Now](#)

Company: Amaris Consulting

Location: Belgium

Category: computer-and-mathematical

Job description

We are currently seeking an Azure Data Engineer to join our dynamic team at Amaris Consulting. This position is perfect for those with 4-6 years of experience who are ready to take their career to the next level. The role offers an Undetermined Duration Contract and is based in Belgium.

Your Responsibilities:

Design, build, and maintain data processing systems using Azure services like Data Factory, Databricks, SQL DW/Synapse Analytics.

Create scalable and reliable data pipelines using ETL practices integrated with cloud technology.

Work closely with stakeholders to understand their needs and develop technical solutions accordingly.

Analyze complex datasets using big data technologies such as Hadoop or Spark.

Maintain security standards for all data platforms through best practices in database management.

Collaborate cross-functionally within a global team environment to achieve project goals on time and within budget constraints.

Stay up to date on industry trends and advancements in order to implement new technologies when beneficial for business growth.

This role will provide you the opportunity not only to grow your technical skills but also contribute significantly towards the strategic direction of our projects.

Your Profile:

The ideal candidate for this position is someone who has a strong understanding of cloud computing concepts particularly Microsoft Azure platform. Your ability to work collaboratively while demonstrating excellent problem-solving skills will be key in this role.

You have 4-6 years' experience working as a Data Engineer or similar roles focusing on azure-based applications development & deployment.

You possess solid knowledge of SQL/NoSQL databases, Python programming language, Power BI tools etc.

Your analytical mindset enables you handle large volumes of raw & processed data to identify patterns, trends and insights.

You have a good understanding of ETL tools and practices along with experience in big data technologies like Hadoop or Spark.

Excellent communication skills in English both written and verbal are essential for this role as you will be working within an international team.

Your ability to work independently while also being a strong team player is highly valued.

You are always eager to learn new technologies & methodologies that can enhance business operations.

Advantages:

An international learning environment

Extensive training and certifications.

A R&D laboratory where you can develop your skills on innovative projects.

The opportunity to bring new ideas to develop a thriving business.

Individual coaching and mentoring, as well as the chance to learn from experts for your professional and personal growth.

An attractive, tailor-made, and evolving career path.

We are an independent company that values:

Agility: thrive in a flexible, dynamic, and stimulating environment.

International scope: enjoy daily international exchanges and numerous mobility opportunities in over 60 countries.

Intrapreneurship: engage in related topics or develop your own Business Unit.

Attentive management: with a limited number of consultants, your manager will adapt to your profile and support you throughout your professional journey.

Amaris Consulting is proud to be an equal-opportunity workplace. We are committed to promoting diversity within the workforce and creating an inclusive working environment.

For this purpose, we welcome applications from all qualified candidates regardless of gender, sexual orientation, race, ethnicity, beliefs, age, marital status, disability, or other characteristics.
