Company: Devoteam Belgium

Location: Machelen

Category: computer-and-mathematical

Job Description

If you like these keywords you'll love this role:

#strategy #digital #solutions #architecture #microsoft

Like to spend time at the whiteboard with stakeholders to find optimal solutions for business challenges? Ready to guide organisations throughout their digital transformation and journey to cloud? In this role, we offer you a mix between an advisory role and hands-on delivery projects.

As a **Microsoft Solution Architect**, you bring seniority, IT vision, business savviness and Microsoft expertise to the table. You provide strategic guidance to prospective customers who want to adopt cloud as part of their digital transformation. You'll be involved in developing roadmaps, project estimations, solution architectures, system designs, and business cases for customers both during presales as delivery. In short, you're the expert liaison between business stakeholders and IT delivery.

To inspire and be inspired by other experts is what sets a Devoteamer apart. In our various communities, we enable national and international collaboration and exchange with other tech leaders and specialists.

You will have a strong impact thanks to our premium partnership with Microsoft and work with Belgium's largest and well known organizations.

Where you will work:

#creatives in our hearts, #change in our DNA.

You'll be part of a bunch of Tech Enthusiasts in a fail-safe culture where everyone, from bright talents to experienced rockstars, is encouraged to continuously innovate and grow. We are a community that is proud of who you are and helps you to become who you want to be. Our dietary constraints: we're allergic to unnecessary hierarchies and excessive processes. At Devoteam, the only constant is change.

Qualifications

[Must-have] You have demonstrable experience in solution architectures varying from monoliths to microservices, from on premise to hybrid and multi-cloud, from custom coding to SaaS solutions.

[Must-have] You are an excellent communicator able to listen to, present to and work with business, management, and technical stakeholders.

[Must-have] You're ready to drive change and bring creative tech ideas to life.

[Must-have] You have a broad view on the entire Microsoft portfolio including Azure, M365 and/or Dynamics.

[Must-have] You're known with an eclectic set of concepts like: microservices, DevOps, resiliency, data & analytics, cybersecurity, privacy & compliance, infrastructure optimization, enterprise architecture, ERP, IoT, ML/AI, etc.

[Must-have] You're either proficient in Dutch or French (or you want to learn) and fluent in English.

[Bonus-points] You are Microsoft certified (or willing to obtain).

If you do not feel fully confident that you meet the requirements above, please don't worry. Just apply. Together we'll discover what you can bring to the table, in which role you would fit best and how you could potentially grow at Devoteam.

Additional Information

Why choose us?

- 1 . **Cutting-edge Technology:** Embrace the latest advancements in IT and digital technologies as we constantly innovate to stay ahead of the competition. Our commitment to adopting state-of-the-art tools and methodologies ensures that you'll work on projects at the forefront of the industry.
- 2 . **Entrepreneur mindset** We value our people over processes. You will develop and grow in an agile and ambitious company where it's okay to take risks, make mistakes and change plans to find transformative solutions. At the same time, you will learn from the best, building relationships and skills that will last your entire career.
- 3 . **Endless Learning Opportunities** We value personal and professional growth. Through workshops, conferences, and certifications, we offer the resources needed to expand your skill set and reach new heights in your career.
- 4 . **Connect with amazing people** You will become part of a network of +10,000 Devoteamers spread over 20 countries.
- 5 . **Collaborative Culture** Teamwork is at the heart of our organisation. You'll be working side by side with a diverse group of IT experts who share your passion for excellence and will inspire you to think outside the box.
- 6 . **Impactful Projects** Tackle real-world challenges that matter! From revolutionising business processes to developing innovative solutions, you'll have the chance to make a genuine and positive impact on our clients and the community.
- 7 . **Work-Life Balance** : We believe in a healthy work-life balance, ensuring that you have time to unwind, pursue your hobbies, and spend quality time with loved ones.
- 8 . **Inspiring and eco-friendly workplace:** We just moved to an amazing new building. We believe an inspiring workspace fuels creativity and fosters a positive work culture, allowing our employees to reach their full potential. The Wings building is also designed with eco-friendly features and energy-efficient systems. By reducing our ecological footprint, we are contributing to a greener future and aligning our business practices with our environmental values. The building is also very easily accessible by public transportation.

9 . **Competitive package** : We offer a competitive salary package with additional benefits like a company car, smartphone, medical insurance, pension plan, net allowance, laptop, meal vouchers, etc. We review our salary grid twice a year to ensure we are in line with the market.

At Devoteam, we combine strong values – respect, frankness, ambition, entrepreneurship & collaboration - with a fun environment that empowers you to innovate and succeed.
