Business Consultant

Company: Ferranti Computer Systems

Location: Belgium

Category: computer-and-mathematical

Function description

Do you want to be **the missing link between business and IT**? Do you like process modelling?

As a Business Consultant you the glue between the client and our technical team. You investigate business requirements and turn problems into opportunities.

A **good fit** with the company is the most important for us. If there's a match, we will shape your role in line with your talents and experience, within our project or product division or a combination of both.

This is a selection of what your tasks and responsibilities could be:

Communicate in-depth with the client in order to understand the business processes & needs

Evaluate the customer's business processes against the defined solution (as-is and to-be)

Configure the defined solution to meet the customer's needs

Guide the client in changing his business processes, according to standard processes

Guide a team of developers and/or partners

Take the lead in specific functional domains in accordance to best practices

Create and execute functional test scenario's & scripts, support the client during testing

Train colleagues, partners & (end)clients

Profile

A good fit with the company is the most important for us. If there's a match, we will shape your role in line with your talents and experience, within our project or product division or a combination of both.

You have a **master degree** (e.g. in economics, business engineering: management information systems, etc.) or will graduate soon

You are a dynamic team player with excellent social, presentation & communication skills

You are fluent in Dutch (native) and English; knowledge of other languages is a plus

You are flexible and like to travel within Belgium & the Netherlands. If you like to travel abroad, we can offer you international projects to work on

We offer

An **extensive training program** by our Ferranti knowledge center, tailored to the needs of a yound graduate

Support by a personal coach and a buddy, so you can grow at your own pace

The possibility and **freedom** to work on international projects

A good **work-life** balance in a team culture that is based on trust

Real **career opportunities** do you want to become an expert or rather grow towards a management role, **that's up to you**

A very **attractive salary package** : company car, insurance, laptop iPhone, internet connection, ... that you can adapt to your needs (you can exchange part of your 13th month for a lease-bike, iPad, extra vacation, …)
