Discover how we can give a sense to your passion on

About the job

As a C++/Qt developer:

You will design and implement software modules according to the specifications of the

customer

You will propose and implement software optimization in close collaboration with

software architects

You will adapt existing software to implement new features

You will develop software in C++

You will develop the graphical user interface in Qt

You will deal with low level unit testing

About you

You have a Master's degree in computer science, IT, electronics or similar

You have at least 5 years of experience in software development

You are passionate about C++ development

You have knowledge in User Interface Design (Qt recommended)

You are fluent in English and French or Dutch

You have strong communication skills and are not afraid of new challenges

About us

Nalys is a people company. We will give you the opportunity to challenge yourself and plan your future while doing what you love.

So whether you are a creative, a dreamer or an achiever, you can find a way to work on something you truly enjoy.

And because we want our company values to be more than words, we invest 7% of our annual revenue to drive innovation, develop your expertise,

train your brains and give you time & tools to think big.
