Your team

As a Software Engineer, you'll join the software development team, as part of the Product Development organization. Product Development consists of specialized teams that focus on a specific domain such as demand and supply planning, user experience, data science, integration, solvers, and more. These teams drive our product road map, share OMP's vision and expertise and create smart, robust, and scalable software solutions that solve our customers' complex supply chain planning challenges.

Your profile

We are looking for someone who meets the following qualifications:

A Bachelor's, Master's, or PhD degree in Computer Science, Engineering, Mathematics, or similar. Alternatively, the equivalent by experience.

Passionate about writing high-quality software.

The eagerness to learn and stay on the edge of technology.

Excellent algorithmic and conceptual thinking.

A solid expertise in one or more of following domains: object-oriented programming, RESTful architecture, and/or functional programming.

Bonus points if you have:

Relevant work experience, including internships.

Experience in using software development best practices (e.g., design patterns, UML, Git, automated testing).

A first experience in cloud-native technologies, streaming frameworks, service-oriented architecture, and API development.

But most of all, you are fun to work with and a great team player!
