

Circular Economy Internship

[Apply Now](#)

Company: Toyota Motor Europe

Location: Zaventem

Category: computer-and-mathematical

Your team and your responsibilities

Team/division description

Embedded in the R&D organisation, European Projects (EP) is in charge of development of local vehicles, coordinating the Innovation activities accross the organisation, and planning the Carbon Neutral transformation and Circular Economy. EP is the point where long term innovation meets market implementation.

Your project

During your internship you will support the established I&TM team in:

Follow up, summary and reporting of the dismantlability study of a Toyota vehcile. The purpose of the study is to assess competitiveness and any improvements required to comply with new End of life (ELV) regulation proposal. The focus will be on 19 category parts and key materials with special focus on Plastic parts.

Research on Design for Circularity (DfC) methodologies applicable to automotive industry and based on it, proposals to define a Circular Economy KPI to be used as reference for new parts design.
