Cloud Engineer

Location: Belgium (Hybrid)

My Client is a leading technology company specializing in the cloud space. They are committed to delivering innovative solutions to their clients, leveraging the latest advancements in cloud computing, data analytics, and artificial intelligence. As we continue to expand their operations, they are seeking a talented and motivated Cloud Engineers to join their dynamic team.

Position Overview:

As a Cloud Engineer, you will play a key role in designing, implementing, and maintaining cloud infrastructure solutions to support our internal systems and client projects. You will collaborate closely with cross-functional teams to ensure the scalability, reliability, and security of our cloud-based platforms. This role offers an exciting opportunity to work with cutting-edge technologies and contribute to the success of high-impact projects.

Responsibilities:

Design, deploy, and manage cloud infrastructure environments on platforms such as AWS, Azure, or Google Cloud.

Implement best practices for cloud security, including access control, encryption, and compliance standards.

Develop automation scripts and tools to streamline deployment, configuration, and monitoring processes.

Monitor system performance and troubleshoot issues to ensure high availability and optimal performance.

Collaborate with software development teams to optimize applications for cloud environments.

Stay updated on emerging trends and technologies in cloud computing, recommending solutions for continuous improvement.

Participate in on-call rotations and respond to incidents promptly.

Requirements:

Bachelor's degree in Computer Science, Information Technology, or related field.

Proven experience working as a Cloud Engineer or similar role.

Hands-on experience with cloud platforms such as AWS, Azure, or Google Cloud.

Strong proficiency in scripting languages such as Python, Shell, or PowerShell.

Solid understanding of networking concepts, including TCP/IP, DNS, and VPN.

Experience with containerization technologies such as Docker and orchestration tools like Kubernetes.

Familiarity with infrastructure as code (IaC) tools such as Terraform or CloudFormation.

Excellent problem-solving skills and attention to detail.

Strong communication and collaboration skills, with the ability to work effectively in a team environment.

Relevant certifications (e.g., AWS Certified Solutions Architect, Microsoft Certified: Azure Solutions Architect) are a plus.

Benefits:

Competitive salary package with performance-based bonuses.

Flexible Hybrid work options.

Comprehensive health and wellness benefits.

Continuous learning and professional development opportunities.

Collaborative and inclusive work environment.
