Cloud Infrastructure Engineer

Microsoft, cloud & infrastructure, some experience, internal role Belgium share on You **believe**, just like we do, **cloud technology** is not only the **future**, but that the future is now. Beyond that, you embrace the new way of working. DevOps, Infrastructure-as-Code, Automation, Configuration management,... any proven modern efficiency-gaining technology sounds like music to your – and our - ears.

You're convinced that **security** is more and more important as hardware is more and more replaced by **software or cloud services** Your motto? Safety first!

As an **ambitious** and **inquisitive** professional, you are eager to expand both your skill set and knowledge, but also that of your colleagues. After all, we're all about team spirit!

Apply for Cloud Infrastructure Engineer!

Thank you for your application.

We will get back in touch with you soon! Have a great day!

read our stories

Who are we?

You'll be joining the **international IT support team**. And when we say international, we mean it. Your direct colleagues are **located in 15 different countries** and cultures around the

globe. They will rely on you to share knowledge and guide them in offering the best solutions to their local peers. In other words, you will make sure that the people of delaware wherever they work or live, can do what they like to do best: to excel at their jobs and keep their customers happy.

Just so you know: delaware has its in **Antwerp, Ghent, Kortrijk, Lummen, Liège and Wavre** , but you'll find the majority of your internal IT colleagues in **Kortrijk**
