## Commerce Platform Architect

Wielsbeke - Group Services

### Your future job

Your role as **Platform Architect** involves performing oversight of our technical deliverables. You'll define the implementation and coding approach for customizations, interfaces, system architecture, data flow and data architecture/data model. You will be the lead point of contact for defining technical requirements, leading the agile delivery teams through technical decisions and challenges to assure our implementation meets the requirements while establishing a future proof and component-based platform architecture.

Collaborate with business stakeholders, functional teams, and other architects to understand business requirements and translate them into effective technical solutions using the commerce platform.

Define and design the overall commerce architecture, considering scalability, security, performance, and integrations with other systems ensuring best practices & best in class solutions.

Communicate & demonstrate the technical solution to a variety of audiences.

Support the agile delivery teams in defining and documenting project technical requirements; leading, enforcing and defining development standards.

Manage technical risk related to complexity, data integration, scalability, and performance.

Perform technical analysis, document technical design decisions and review development estimates to provide the complete cost of delivering a solution.

Problem Solving: Analyze complex technical challenges and propose innovative solutions that balance business needs, technical feasibility, and long-term sustainability.

Manage the platform from technological standpoint. Initiate, plan and perform platform transformations and lifecycle activities on time.

Identify technical debt in collaboration with solution and domain architect.

Drive continuous improvement initiatives to optimize the development process, increase efficiency, and enhance the overall quality of the SAP Commerce solution.

Stay updated with the latest trends & advancements in the SAP commerce ecosystem and evaluate their potential impact on the existing architecture.

Lead the platform COSI (community of shared interest) to educate the delivery teams & share knowledge as needed.

### **Who are you?**

3+ years of Commerce project SDLC and implementation experience

5+ years' experience in programming, technology, software development

Demonstrate deep technical expertise in Commerce. Stay updated with the latest advancements in the Digital ecosystem and evaluate their potential impact on the existing architecture.

Proven experience as a Commerce Technical Architect with a track record of successful e-commerce implementations.

Strong knowledge of Commerce architecture, data modeling, and development best practices

Familiarity with DevOps practices, continuous integration, and deployment pipelines.

Strong communication skills and the ability to communicate complex technical concepts to non-technical stakeholders.

Proficient with Java Spring frameworks & related technologies, Angular & JavaScript etc.

Excellent leadership and mentoring capabilities

Ability to adapt to changing priorities and work effectively in a fast-paced environment.

Microservice design principles

Additional Skills considered as a nice plus:

Experience with mobile technologies, Spartacus, Angular/React.

Experience with Azure and other cloud technologies

SAP Commerce certifications are an advantage.

Experience with solutions like AEM assets

#LI-LC

### **What can you expect?**

A competitive remuneration package.

An extensive leave system and a flexible work schedule with the option of home working.

Luncheon vouchers, hospitalisation and group insurance.

Possibility of bike leasing.

We invest in your development and we believe in lifelong learning. In our state-of-the-art training centre The Dive you are bound to find training courses that will help you grow.

Countless possibilities to build your career.

An employer with a transparent sustainability strategy (for our planet, customers and employees).

Our unique Unilin DNA.

In different locations we have a company restaurant with a varied menu.

Benefit from attractive discounts on our products.

Child care is an option during a number of school holidays.

Make the most of discounts at a number of partners through our Benefits at Work platform.

You will often find us at sporting events. You and your family can participate for free.

In short, you'll be working for a Top Employer!

### Who are we?

Unilin Group is an international reference in interior design and construction industry solutions with a strong focus on sustainability and innovation. With our floors, panels, insulation materials and technologies we are present in the homes and workplaces of millions of people and in public spaces across the globe. Our brands Quick-Step, Pergo and Moduleo probably ring a bell. Every day, some 8,300 employees around the world dig deep to push boundaries and innovate. Want to learn more about us? Then be sure to check out our website.
