Vacature omschrijving

Review and comment on Subcontractor procedures and Inspection & test plans. Perform witness, inspection & surveillance checks and continually assess Subcontractor QC performance. Ensure the quality of the work in accordance with the Construction Site Quality Plan, approved ITPs, and procedures within assigned areas. Ensure that all inspection activities are recorded in the appropriate records. Monitor Subcontractors QC resource levels to achieve quality standards according to agreed ratio. Identify and document Subcontractor and Supplier quality deficiencies and initiate non-conformance process as required. Record deficiencies and/or incomplete works on punch items and liaise with supervisor/ superintendent to expedite necessary rectification. Maintain close liaison with discipline supervisors to coordinate filed inspections. Make sure that materials used are in accordance with project technical documents and applicable codes and specifications. Support QC/ turnover team for collecting relevant QC records.

Implement HSE procedures and standards in compliance with applicable laws, Health and Safety Documentation and Environmental Management Manual. Be diligent and draw attention to unsafe acts, unsafe behaviours and unsafe conditions.

Je profiel

Have solid background of civil and structural steel disciplines. Have a minimum of 5 years of experience in civil /quality control construction field. Be familiar with the application of EN

1090-2 standard and regulation No. 305/2011 – Construction Product Regulation. Be familiar with Completion and turnover management process.
