Functie omschrijving

As a cooperating shift supervisor, you will work on the production line of hand-made bricks and the after-treatment department where mainly manual activities are carried out (e.g. stacking and mixing according to fixed patterns, sorting and sawing operations, etc.).

You cooperate and ensure that the requested production planning is closely followed on the line assigned to you.

You train new employees and help implement training plans.

Minor administrative tasks (attendances, returns, attendance tracking and preparation of staff evaluations....).

You report directly to the team leader.

Stocking individual work stations on the line and removing finished material with forklift truck

Translated with www.DeepL.com/Translator (free version)
