

Copilot consultant

[Apply Now](#)

Company: Roboest

Location: Kontich

Category: computer-and-mathematical

In this dynamic role, you'll be at the heart of our innovative efforts, staying abreast of the ever-evolving ecosystem of Microsoft Copilot & Power Platform, with a particular focus on the Microsoft Copilot Studio. You will collaborate closely with customers to understand their needs for chatbots and virtual assistants, using AI to collect and translate requirements into functional designs and conversation flows. Leveraging Copilot Studio, enhanced with Azure OpenAI, you will craft and build bespoke solutions, taking into account the unique constraints of each project, including technological limitations, budgets, and customer expectations. Your responsibilities will extend to conducting thorough quality tests of the solutions you develop, ensuring they meet our high standards and deliver on customer needs. Working within an agile project team, you'll engage in daily standups, sprint planning, and reviews, all aimed at efficiently driving customer projects to success. Furthermore, you'll play a crucial role in fostering a culture of knowledge sharing, contributing to communities and team meetings with insights and learnings from your projects. This role is perfect for those with a deep interest in chatbots, virtual assistants, and the broader AI technology landscape, particularly within the Microsoft ecosystem. If you're passionate about leveraging technology to solve complex problems, eager to learn and explore new tools and platforms, and excel in a collaborative, fast-paced environment, we invite you to apply and make a tangible impact on our journey.

Strong interest in the domain of chatbots and virtual assistants and low code apps in general

Strong interest in technology related to AI, M365, and Power Platform

MS Copilot Studio (previously known as Power Virtual Agents) experience is preferred (Microsoft chatbot framework also applies)

Natural language processing (NLP) and Generative AI (LLM's mainly)

Eagerness to deep-dive on new topics like Copilot studio and the extensibility options with low code plugins

Good communication and presentation skills

Comfortable in conducting workshops to gather requirements at customers

Ability to work collaboratively with cross-functional teams and clients

Expertise in IT projects as functional or technical consultant

Expertise in M365/AI/Power Platform-projects is a major plus

40 hours workweek + ADV days

50/50 remote & on-site work (Kontich, Gent)

Company car

Meal & eco vouchers

Group & health insurance

Internet at home (€ 50/month)

Lunch included at the offices
