

## CQV Engineer for pharmaceutical projects (Employee or )

[Apply Now](#)

Company: 3HR

Location: Belgium

Category: computer-and-mathematical

### The Scope

Our client is a new Engineering office active in various Life Science Industries like Pharmaceutical, Biotechnology, Medical Devices, with expertise in Qualification & Validation, Quality Assurance, Consulting, Engineering and Construction Management. With a constant evolving team composed 25 employees/freelances and offices in Belgium, our client is now looking for **a Commissioning, Qualification, Validation Engineer for pharmaceutical projects in Wallonia and very occasionally abroad for the FAT (mainly in BeNeLux and France, Germany and Switzerland).**

Are you ready to contribute to their continued growth?

**3HR Recruitment Solutions is the Recruitment Partner of Entrepreneurs, small & medium companies, do you like working in such a business with a family ambiance?**

Do you have an entrepreneurial mindset and are you passionate about working in Life Science industries?

We love meeting smart and forward-thinking talents, so don't hold back!

### Your key tasks and responsibilities

As one of our CQV Engineers, you will

- Have a knowledge of current Industry standards, regulatory requirements and Authority expectations regarding CQV

- Develop project specific CQV approach and methodology

- Prepare project CQV deliverables: User Requirement Specifications, Risk and Impact

Analysis/Assessment (Process, Business, EHS, Regulatory), Validation Master Plan (VMP), Design Review/Qualification, Test Matrices, FAT, SAT, Commissioning, IQ, OQ, PQ protocols and reports

Support in project schedule for CQV activities

Organise, execute and document CQV testing

Support during system/installation start-up in function of CQV test activities

Set up and follow up of Project documentation System and Management

Work in close collaboration with Project, Engineering and Construction Management

Be in charge of the registration of quality indicators for CQV Engineer's discipline

### **You could be our ideal candidate if**

You hold a (Professional) Bachelor or a Master's degree (or equivalent by experience), ideally in biotechnology, industrial, pharma, chemical sciences or relevant other expertise

You have a significant (or a first experience) in Life Sciences industries

You have excellent communication skills in English, French and/or Dutch (written and spoken)

You have an enhanced knowledge of current Industry Standards, Regulatory requirements and Authority expectations (Eudralex, FDA, PICS, ICH, ISO, ASTM2500 ...)

You have a good Comprehension and understanding of technical installation, PID, equipment and buildings for the Life Science Industry

You know the latest developments in the C&Q field and relevant legislation and industry standards (cGMP).

You have a field experience with: System start-up and CQV, Project scheduling, Change management, Project document management

You are a structured, conscientious and precise fast-learner

You are a real team player who can also work independently

You are ready to travel and you are flexible on schedules and duties

You are resourceful with a CAN DO mentality who can think proactively

! Only Europe-based and selected candidates will be contacted back by 3HR Recruitment Solutions, thanks for your understanding.

### **We offer you**

Besides an exciting flexible environment, a unique chance to participate in challenging and innovative projects and interaction with inspiring colleagues who have a professional attitude and attach considerable importance to teamwork; we stand for

A challenging position

Permanent or freelance full-time contract (40hr/wk + 12 RTT) and long term collaboration

Location: Wallonia (Belgium), flexible depending on your mobility and on clients' locations

Ideal start date: September 2023 or January 2024 or ASAP

Freelance : a long term collaboration and evolving perspectives

A challenging job in a dynamic and knowledge-sharing network company

The freedom to develop yourself in line with your ambition

A great autonomy in your role, an excellent working atmosphere within a great team of experts in their domain

Employee : A competitive salary

Employee other benefits including a company car, fuel card, lunch vouchers, eco vouchers, pension plan, phone subscription

Would you like to work for a small company with a top level service?

We are looking forward to meeting you soon.
