Company: Worldline

Location: Belgium

Category: computer-and-mathematical

This is Worldline

We are the innovators at the heart of the payments technology industry, crafting how the world pays and gets paid. The solutions our people build today power the growth of millions of businesses tomorrow. From your local coffee shop to unicorns and international banks. From San Francisco to Auckland. We are in every corner of the world, in every part of commerce. And just as we help our customers accelerate their business, we are committed to helping our people accelerate their careers. Together, we shape the evolution.

The Opportunity

The core competence of Worldline is our digital infrastructure, the basis for all our products and solutions. It is through our Technology and Operations units, where Group Security is present, that we fulfil our promise to the customer. Here is where transactions are being processed via state-of-the-art platforms and the future of payments is being prepared.

Worldline's culture and governance embeds mature and proactive security standards in line with the ambition of our premium brand positioning, driving enhanced value for the business, for our customers. Our Security Officers around the globe, with great expertise and deep engagement, have implemented strong processes to support business and they

play a key role in maintaining and expanding our security ambition. Are you thriving working in a multicultural environment and ready to improve your expertise in security compliance ? If so, an opportunity has arisen for an experienced Leader to join the Group Security Organization.

Reporting to Worldline head of Group Security GRC, **Cloud Security Expert** will help the company with its Cloud transformation, integrating both the infrastructure component through a strategic partnership with Google in particular and the operational component through DevSecOps. The successful candidate will lead analyse the impact on cybersecurity and adapt processes in line with this transformation.

Day-to-Day Responsibilities

You support the implementation of the Group Security strategy on public cloud

You lead cloud security projects and support the continuous improvement of security processes, security assurance & compliance in particular for Public Cloud & DevSecOps transformation

You perform security risk assessments and monitor the implementation of security recommendations to assure security operational readiness, as a true business partner and trusted security advisor

You supervise, advise and update process/procedure for security (access management, vulnerability management, security monitoring & logging, penetration testing, patch management, anti-virus management, security hardening, key & certificate management) especially on Cloud implementation

You promote Cloud Security awareness and training

Who Are We Looking For

We look for big thinkers. People who can drive positive change, step up and show what's next

– people with passion, can-do attitude and a hunger to learn and grow. In practice this means:

Must have:

Experience in Cloud Infrastructure and/or DevSecOps, Cloud data Security, Cloud application security and Cloud security operations

Good communications skills and strong knowledge of spoken and written English.

Technical background with a good understanding of security concepts and practical usage.

Experience in applying and improving corporate policies in line with security standards, regulations and methodologies in the financial industry (e.g. ISO 27k, PCI-DSS, NIST CSF, ECB CROE).

Proactively seeks to improve security processes and implements best in class solutions, raising security awareness and overall security measures.

Ability to work efficiently with minimal oversight/direction remotely, adjusting to changing priorities, circumstances and personal interaction styles.

Nice to have:

Certification on cloud infrastructure: CCSP or Google Professional Cloud Security Engineer

Certification on Secure Coding like CSSLP

Perks & Benefits

In addition to joining a global leader in payments, you can also expect an excellent range of benefits.

Shape the Evolution

We are on an exciting journey towards the next frontiers of payments technology, and we look for big thinkers, people with passion, can-do attitude and a hunger to learn and grow. Here you'll work with ambitious colleagues from around the world, take on unique challenges as a team, and make a real impact on the society. With an empowering culture, strong technology and extensive training opportunities, we help you accelerate your career - wherever you decide to go. Join our global team of 18,000 innovators and shape a tomorrow that is yours to own.
