- Operational Resilience SaaS: STORM

In addition to your missions and as part of your participation in the internal development of the firm, you participate in:

- Innovation within our Sia CyberLab, where you work on the development of new SaaS offers and solutions around advanced technologies and capitalizing on our unique know-how in AI. You also carry out benchmarks and PoCs of Cyber solutions on the market, while participating in active monitoring of Cyber news.
- Promote the firm, around our Cybersecurity expertise, by actively contributing to the publication plan (articles, insights, white papers, studies, webinar, etc.), and represent the firm at various professional clubs, fairs and events.

Qualifications

You have a Master's degree engineering/computer science/statistics/econometrics.

You have 0-3 years relevant working experience within a consultancy firm with experience in cybersecurity projects.

Knowledge in Python, C++, Java, Ruby, Node, Go, and/or Power Shell.

Knowledge in IP Networks, Operating Systems (Unix / Linux, Windows and/or macOS), Cloud (AWS, Azure and/or GCP), Applications (Web Server, BDD, Middleware, etc) as well as Cryptography; knowledge in Blockchain would be a real plus.

You're a fast learner, communicative, flexible and entrepreneurial

Language skills: French, Dutch and English

Prepared to participate in temporary assignments abroad (e.g. France, The Netherlands)
