

Data Transformation Manager

[Apply Now](#)

Company: KPMG

Location: Belgium

Category: computer-and-mathematical

Position description

Job title

Data Transformation Manager

Function

Advisory - Senior Manager

Roles & Responsibilities

As part of our KPMG Lighthouse team, we support end-to-end business transformation journeys, leveraging Data, Analytics & AI capabilities.

We are looking for a Data Transformation Manager to reinforce our growing team. In such a role, you would manage transformation projects of medium to large sizes. You will work together with (or as the liaison towards) functional teams, technology and sector experts.

You will be responsible for the end-to-end project and/or program management activities and for coaching project team members. In this role you will be the key contact at clients and represent our team. In this way, you will make an impact and realize changes into our client's organization. In order to do so, you have a decent understanding and experience of data and related technologies and can seize the opportunities they offer to solve complex client's issues and questions.

You will be part of our team and have the opportunity to travel and grow in the organization, while reporting to the leadership of our KPMG Lighthouse team.

Define project approaches, structure project team, elaborate project/program demand;

Adapt to various clients contexts, listen to their challenge and think about (innovative) solutions to guide their transformation;

Compose and guide project team to deliver the data enabled transformation;

Actively contribute to the further growth through identification of business opportunities and support go-to-market activities

Zaventem HQ

Skills & Qualifications

In order to become a successful Data Transformation Manager at KPMG, we are looking for fast learners and critical thinkers with a broad view on data to be able to break down the data challenges faced by our clients. In addition you also feature the following qualifications:

You have acquired more than 6 years of relevant experience in a related position, preferably within a consulting organization;

Familiar with change management in the implementation of data & information management strategies, BI, advanced analytics and AI;

You are familiar with market trends and technologies related to data management, analytics and visualization;

You can demonstrate various experiences of similar transformation projects or programs;

You are well organized, pro-active and solution oriented in nature with a “getting things done” mindset

Guiding clients and leading/coaching teams gives you drive and energy

You are willing to contribute to a fast-growing environment and company culture

You speak fluently English **and** Dutch or French

We offer

A corporate culture in which personal growth, mutual trust and lifelong learning are being fostered.

An inclusive workspace that encourages diversity and pursues mutual respect for each other's beliefs and background.

Professional experiences in an international and dynamic working environment with inspiring colleagues.

Flexible, hybrid work arrangements to enable working on different locations: home office, on-site or on the go.

A wide range of teambuilding activities and social events that enable new joiners to meet colleagues within the wider KPMG community and have some fun along the way
