

## Design Engineer - Doka Belgium

[Apply Now](#)

Company: Doka

Location: Belgium

Category: computer-and-mathematical

### Beschrijving van het bedrijf

With a worldwide turnover of around 1 billion Euro, Doka is one of the largest producers and suppliers of formwork material. With more than 5900 employees in more than 70 countries, we offer efficient solutions in the field of concrete construction worldwide. The Belgian market is fully serviced by around 50 employees from the national Headquarters in Ternat.

### Functieomschrijving

Digital drawing and design of formwork for concrete structures in construction projects of all kinds.

Create material lists to support quotations and deliveries

As a passionate design engineer, you execute your assignments with great degree of care and accuracy, within the planned schedule.

You work closely with our representatives and customers, both in tender and in execution phase.

### Functie-eisen

You have extensive Auto-Cad expertise.

You have a good spatial insight and technical interest.

You preferably have a Bachelor or Master degree in Construction Engineering or equivalent

through experience.

You have a good knowledge of Dutch and French.

You are stress resistant, eager to learn and you have a sense of order and precision.

### **Aanvullende informatie**

We offer you:

A stable job with alternating work as a team player in a pleasant, dynamic and enthusiastic work environment.

A motivating fixed salary with many additional legal benefits

A progressive training program

Attractive holiday arrangement and flexible working hours

For any further questions, please do not hesitate to contact Mr. Koen Lamers (Tel. 02/582 02 70)
