## DevOps Engineer Microsoft Azure

Microsoft, cloud & infrastructure, some experience, developer Belgium share on

You combine your passion to **create cloud solutions** with the hands-on and flexible attitude to **advise on and realize business projects**. As **an** **ambitious, technically skilled DevOps engineer**, you have the **technological and commercial insight** to put yourself in the shoes of the customer, understand their reality and translate Azure architectures into a working **Microsoft Azure** environment.

You are **ambitious** and eager to take on a varied range of projects, during which you will work together with development teams to set up, improve and maintain CI/CD and development processes. You are **keen on growing and diversifying your DevOps engineering skills** while working mostly autonomously on your projects. You are **committed** to **expand your knowledge** by staying up-to-date on the latest technologies in your field and **mentoring** your less-experienced colleagues to help our team grow further.

**Apply for DevOps Engineer Microsoft Azure!**

**Thank you for your application.**

**We will get back in touch with you soon! Have a great day!**

## Who are we?

We are the **Cloud Enablement and Operations** team, and we embrace **both Microsoft and SAP cloud technologies** as we implement business applications and custom solutions for our customers. We exist to make sure developers focus on development, while we **architect, setup & maintain the cloud platform**

Secondly, we ensure a **productive and secure workplace for our customers**. Our biggest challenge is to keep up with the fast pace of cloud innovation. Our trademark is working on **innovative projects**. We already set up the largest Azure PaaS platform in Belgium and realized a cloud migration that even Microsoft did not believe in.

Just so you know: delaware has its offices in **Antwerp, Ghent, Kortrijk, Liège, Lummen and Wavre**, but we also spend a lot of time working together with our customers **on-site**.
