Your Profile

What You Bring

Bachelor's/Master's degree in computer science, IT, or equivalent experience.

Strong passion for Microsoft 365 ecosystem and hands-on experience.

Proven track record deploying Microsoft (cloud) solutions.

10 years of IT architecture/design/engineering in complex environments.

Microsoft certifications (MD100, MD101, MS500, AZ300 & AZ301) are a plus.

Analytical mindset, foreseeing solutions for intricate challenges.

Solution-oriented, creative, and open-minded approach.

Customer-centric focus and excellent communication skills.

Collaboration and teamwork are second nature to you.

Eagerness to learn and adapt to new technologies.

Proficiency in English, and either Dutch or French.

Join us in shaping a cutting-edge digital workplace. Let's innovate together.

What do we offer you?

We are 100% Belgian. So we make decisions in three languages. And all at the same time if you like!

We are open to everyone: M, W, X, and in fact all the other letters of the alphabet.

We encourage personal growth. At the Proximus Academy, you won't even want to miss a session.

We are, of course, committed to sustainability. What else did you think?

We firmly believe that working together is important, but that having fun together is even more so. That is why we regularly organise fun activities. (Please let us know if you have a talent for playing Santa Claus!)

We believe in responsibility. Also in yours. For example, you can take it to launch your own initiatives.

We put our customers first. And because we are all customers somewhere, you already know what that means. That's good.

And the ever-important work-life balance? We keep it in the right place.

Naturally we have a competitive salary package for you. Click (or apply) to discover what else we offer.
