

## Electronic Design Engineer

[Apply Now](#)

Company: Nalys

Location: Belgium

Category: computer-and-mathematical

Nalys is a consulting group dedicated to high technology projects.

Thanks to our strong corporate values and management, we are one of the fastest growing actors in engineering consultancy.

We gather great minds & challenge boundaries to help our customers developing stunning products. And we love doing it.

Discover how we can give a sense to your passion on

### **About the job**

You will be working on cutting edge hardware development of cars' lightning systems.

Because today a car is not only a commuting tool, you will be part of the Automotive systems future.

Using the latest technologies, you will work in an international / multi-disciplinary team developing systems for sport,

city and family cars. Culturally-wise, you will integrate a very dynamic team where good/clear communication,

efficiency and passion for the automotive industry will be the key to your success

Here's what you'll be responsible of:

Development of the Electronic/HW components

Management of the planning, costs and quality

Negotiation with internal and external customers

Focal point between suppliers, customers and internal development team

Decision making regarding HW/Electronic strategies

Propose innovative solutions

Technical management of the whole project

You may travel up to 10% of your time between the different group sites.

### **About you**

You have a Master degree in Electronics (analogical & numerical)

You have at least 5 years of experience in HW development (PCB design, management of requirements, etc.)

and a first experience in technical project management

You are fluent in English and French

Corporate values mean a lot for us. We expect them to mean something for you

### **About us**

Nalys is a people company. We will give you the opportunity to challenge yourself while doing something you love.

So whether you are a creative, a dreamer or an achiever, you can find a way to do something you truly enjoy.

And because we want our company values to be more than words, we invest 7% of our annual revenue to drive innovation,

develop your expertise, train your brains and give you time & tools to think big.
