

Embedded Software Engineer

[Apply Now](#)

Company: Groupe SII

Location: Liège

Category: computer-and-mathematical

SII Belgium is seeking a highly motivated and experienced Embedded Software Engineer to join our team. In this role, you will be responsible for designing mechanical systems, products, or devices and apply engineering principles and techniques to develop innovative and functional mechanical solutions for our clients mostly in the aerospace & defense sector. SII is a European digital and engineering services company of , experts. SII Belgium supports large businesses in adopting new technologies and innovation management. SII values empowerment and entrepreneurship, providing a fulfilling work environment for employees. Our mission is to contribute to the design and development of future products and services for customers. SII is committed to a sustainable digital world and is recognized as a great workplace.

Responsibilities:

Design, develop, and maintain embedded software for aerospace systems

Work with cross-functional teams to define and implement software requirements

Collaborate with hardware engineers to ensure proper system integration

Participate in code reviews and maintain software documentation

Troubleshoot and debug software issues

Requirements:

Experience with real-time operating systems and embedded systems

Strong knowledge C /C++ language, Python , and practice of one assembly language

Experience with micro-controllers and development without operating system

Strong analytical and problem-solving skills

Experience in digital electronic design is a real plus

Fluent in French and English

Master's degree in Computer Science with embedded specialty, Electrical Engineering, or a related field

Minimum of 5 years of experience in embedded software development

We offer:

A challenging and varied role in a growing company

Opportunity to work with the latest technologies

Competitive salary and benefits

Opportunity to improve your skills and knowledge through training and certification

Warm and open company culture, supported by an international group

If you are passionate about embedded software development and have a desire to work in aerospace, we would love to hear from you!

Apply now and become part of our dynamic and driven team at SII Belgium!
