

## Engineer IT/OT

[Apply Now](#)

Company: ATS Automation

Location: Antwerp

Category: computer-and-mathematical

### Job Description

As an IT/OT engineer, you apply your in-depth knowledge of OT and IT to analyze, solve problems, and optimize our clients' IT/OT infrastructure for maximum uptime at our clients. This includes not just advising but also the actual implementation of solutions within networks such as routers, switches, firewalls, servers, industrial controllers, and MES systems. Your initiative to independently identify and implement improvements makes you a crucial, proactive pivot within our organization.

### Hard Skills

#### Essential:

Professional bachelor's degree in IT or equivalent through experience.

At least 2 years of experience in IT project execution.

In-depth knowledge of network architectures (routers, switches, firewalls) from well-known vendors like Cisco.

Extensive knowledge of Windows environments (servers, Active Directory, Office).

Familiarity with virtual environments (Cloud, VMware) with a focus on cybersecurity.

#### Advantages:

Experience with software development tools (PowerShell, .NET, Python, PHP).

Basic knowledge of industrial communication protocols (Ethernet, OPC). • Initial work

experience as an IT helpdesk/service desk employee is a plus.

### **Soft Skills**

Pragmatic analytical skills, focused on results.

Eagerness to learn for technical and personal competency development.

Independent and proactive in seeking creative solutions.

Excellent communication skills, able to explain complex matters simply.

### **Other Requirements:**

Valid B driver's license.

### **Offer**

#### **What does PA Solutions offer you?**

**Challenge in your role:** Impactful work in a rapidly growing, international company.

**Top conditions** Attractive package with fringe benefits, such as insurances and meal vouchers.

**Ultimate Flexibility:** Freedom with flexible hours and options for working from home.

**Sustainable Mobility:** Your own electric car, Europe-wide charging pass, and home charging station.

**Learn & Grow:** On-the-job training, external courses, and limitless career paths vertically and horizontally!

**Epic Team Vibes:** A close-knit, energetic team spirit with weekly get-togethers (Duvel Hour) and monthly team building activities (bowling, quiz, sports events, padel, ...), annual ski trip, and our legendary Christmas party!

#### **Totally convinced to start at PA Solutions?**

Send us your CV with a short motivation via [jobs.be@pa-ats.com](mailto:jobs.be@pa-ats.com) and we will contact you very soon!

Please note that only candidates who will be invited for an interview will be contacted.
