

ENGINEERING PROJECT MANAGER FINEO™

[Apply Now](#)

Company: AGC Glass Europe

Location: Belgium

Category: computer-and-mathematical

What if your next job was about...

You will join the Fineo™ team as Engineering Project Manager.

You will report to the Manufacturing Manager of FINEO™ and will work with the production, quality & maintenance teams of the plant & with suppliers.

You will be responsible for:

Leading engineering projects at plant level.

Ensuring automated data collection related to the processes (Fineo 4.0).

Driving problem definition and solving for root cause.

Monitoring performance and compiling and executing structured action plans to remedy systemic problems.

Supporting the maintenance team (analyzing downtime of equipment, offering improvements, ..)

Are you the perfect match ?

You have a Master degree, preferably in Electromechanical Engineering, or Automation Engineering.

You are passionate about automatization, IT and maintenance.

You have strong communication, presentation, negotiations, interpersonal skills.

You are team oriented with an agile mindset, hands on attitude and a will to get things done.

You speak French & English fluently, any other European language is a plus.

What do we offer

You'll be part of a committed, smart team, respectful for diversity.

You'll get wide-ranging exposure to different aspects of glass and new technologies.

We offer competitive compensation, training opportunities and respect for autonomy.

Curious to know more

about your future site ?

FINEO™ is no ordinary glass. It's the future.

FINEO™ is the newest type of insulated glass. With its unique vacuum technology, FINEO™ is one of the lightest insulated glass panels in the world while providing the performance of standard triple-glazed insulated glass.

It is light-weight, allows better light transmission and better acoustic performance than most traditional insulated glass systems. Fineo™ only consists of glass so there is no need for spacers and can be incorporated into any glazing application.

FINEO™ gives architects and designers the versatility to create even more stunning interiors and exteriors whilst at the same time comply with local and national energy-efficiency requirements and standards. FINEO™ offers a new dimension in both new-build and refurbishment construction projects.
