

Enterprise Architect

[Apply Now](#)

Company: Kayley

Location: Bruxelles

Category: computer-and-mathematical

This role requires a bachelor's or master's degree in computer science, data science, information systems or related study field (or equivalent work experience).

Experience As a candidate you should have :

- A minimum of twelve years of experience in IT, with at least seven years in closely related domain (working as Enterprise Architect, Infrastructure Architect, Security Architect, ...).
- Strategy and management consulting experience is highly recommended to act as partner for Senior Management and CxO's both from IT- as Business side.

Required Knowledge and Skills

- Demonstrated communication, presentation and facilitation skills, including the ability to explain digital concepts and technologies to business leaders, and business concepts to technologists. You should be able to “sell” ideas at all management levels and deliver presentation materials and simple briefings that meet stakeholder needs. You know how to create “buy-in” and get things done by others not directly under your supervision. The Architecture Community is distributed, so different hierarchical reporting lines.
- Broad experience in multiple competency areas of technology delivery. Examples are Machine Learning Services, Container Services, Disaster Recovery & Business Continuity, IAM, IOT, Database Services (Oracle, Microsoft SQL), API (e.g. GraphQL, REST, AMQP, MQTT).
- Profound knowledge and experience with Microsoft Azure products – Expert Certification Level is considered as an additional plus. Any other Public cloud experience is desired, but not essential.

- Knowledge of compliance and Enterprise Architecture frameworks. Examples are TOGAF® and COBIT®
 - Profound knowledge and experience in ArchiMate®, certification is considered as an additional plus.
 - Experience with ADOIT Enterprise Architecture Suite is considered as an additional plus
- Languages: English as must (additional French or Dutch); open for people from France or Netherlands

Duration: 1 year with possible extension

Hybrid working possible – once a week in the office (flexibility in remote working)

Location: Brussels

Dans le paysage moderne d'aujourd'hui, l'informatique joue un rôle majeur dans la manière dont nous menons nos activités. Du développement, des systèmes informatiques, des applications métier, de la sécurité réseau, du cloud, de la virtualisation aux plates-formes avec applications IA. Afin de maximiser votre compétitivité et de booster votre innovation, Kayley propose un solide portefeuille de services de conseil en informatique.
