Experienced Mendix Developer

other, software development, some experience, developer Belgium share on

Are you **logic and analytical** person with some development knowledge?

Are you interested in developing **mobile and web applications** in record time?

Are you looking forward to getting to know businesses from a wide **variety of industries**?

If so, you could have what it takes to be a great **low code consultant**

Apply for Experienced Mendix Developer!

Thank you for your application.

We will get back in touch with you soon! Have a great day!

read our stories

Who are we?

As a small (but growing) team of development experts, we believe **low-code is the way to go**. We work with multiple low-code platforms such as Power Apps and Mendix to create fully functioning applications for our customers.

We're like **a start-up within a bigger organization**, so we benefit from the best of both worlds: the freedom to carve out our own path, while also relying on Delaware's existing customer network and resources. Our ambitions? To put Rapid Application Development

(RAD) on the map as an alternative for traditional development, and to create value for our customers by providing **fast and visible results** .

Just so you know: delaware has its offices in **Antwerp, Ghent, Kortrijk, Lummen, Liège** and **Wavre** , but we also spend a lot of time working together with our customers **onsite**.
