Expert in AI/NLP/ML

Apply Now

Company: EUROPEAN DYNAMICS

Location: Brussels

Category: computer-and-mathematical

Description

We currently have a vacancy for an **Expert in AI/NLP/ML** fluent in English, to offer his/her service as an expert who will be based in Brussels, Belgium. The work will be carried out either in the company's premises or on-site at customer premises. In the context of the first assignment, the successful candidate will be integrated in the Development team of the company that will closely cooperate with a major client's IT team on site.

Your tasks

Development and maintenance of software applications in the field of Natural Language Processing (NLP), Machine Learning (ML) and/or Artificial Intelligence (AI);

Training of custom machine learning / deep learning models based on structured and unstructured data;

Processing, cleansing, and verifying the integrity of data used for analysis;

Design the IT architecture for solutions in the NLP / ML / AI fields, and coordinate its implementation considering master- and meta-data management concepts;

Contributing to the design of the IT architecture considering master- and meta-data management concepts.

Requirements

Master's degree in Artificial Intelligence, Natural Language Processing or Machine Translation combined with 17 years of IT professional experience;

Excellent knowledge of Perl, Python, Matlab, R and its NLP/ML libraries (SpaCy, NLTK, scikit-learn, pandas…);

Excellent knowledge of machine learning techniques and algorithms, such as k-NN, Naive Bayes, SVM, Decision Forests, Neural Network, and/or artificial intelligence frameworks;

Good knowledge of AWS and/or Azure, Linux, Unix and Bash;

Good knowledge of quality assurance and quality control for machine translation (MT) and experience with MT quality procedures, testing methodologies and tools, such as automatic quality metrics (BLEU scores and similar) and human evaluation of MT quality;

Knowledge of query languages, such as SQL, Hive, Pig, etc and with information extraction;

Knowledge of NoSQL databases, such as MongoDB, Cassandra, HBase, etc.;

Knowledge of data visualisation tools, such as D3.js, GGplot, etc;

Experience in the field of corpus based linguistics;

Experience with data analytics over big datasets, non-structured databases as well as data lakes;

AWS Certified Machine Learning, Microsoft Azure AI Engineer Associate or SAS Certified Professional AI and Machine Learning Certification would be considered as a strong asset;

Excellent command of the English language.

Benefits

If you are seeking a career in an exciting and dynamic company, where you will offer your services as part of a team of a major European Institution, operating in an international, multilingual and multicultural environment where you can expect real chances to make a difference, please send us your detailed CV in English, quoting reference **(79347/03/24).** We offer a competitive remuneration (either on contract basis or remuneration with full benefits package), based on qualifications and experience.
