## Field Service Engineer living in the area of Antwerp

Apply Now

Company: Roche

Location: Belgium

Category: computer-and-mathematical

### The Position

At **Roche Diagnostics Belgium**, we have the unique opportunity to shape healthcare and change lives.

Alongside more than 100 000 Roche colleagues across 100 countries, we work in a culture of collaboration, driven by the ultimate objective of **“Doing now what patients need next”**. We are proud to develop innovative diagnostic solutions which help medical professionals to make better and more personalised decisions together with their patients – decisions which can maintain health, prevent disease and help advance new, targeted treatments and potential cures for the world’s most serious health problems.

We are currently looking for a **Field Service Engineer** living in the **area of Antwerp** (Belgium).

As a **Field Service Engineer**, you are responsible for:

The installation, maintenance and repair of high-tech laboratory equipment

Ensuring and maximising customer satisfaction for the entire range of analysers and systems

Ensuring that the Roche Diagnostics' systems, analysers and component products meet the manufacturer’s specifications

The optimal operation of the assigned systems and analysers, within one or more product lines

### **Who you are**

You're someone who wants to influence your own development. You're looking for a company where you have the opportunity to pursue your interests across functions and geographies, and where a job title is not considered the final definition of who you are, but the starting point.

Trilingual Dutch - French - English (technical) is a must

You have a Bachelor, or Master, degree in Electronics or Electro-mechanics

Knowledge of IT and network infrastructure is a strong asset

You are customer-oriented

You enthusiastically undertake your tasks with determination and alertness based on the results to be achieved

You can work independently and you are also a team player

You are detail-oriented and carry out more complex tasks with a lot of attention

You have the ability to work in accordance with the objectives, vision and values of the organisation

You are orderly and meticulous in collecting and storing the information entrusted to you

You can assess a situation, find alternative solutions and carry these out

Willingness to attend meetings/training courses abroad

You will work in a Guard system and are flexible to make sometimes overtime

We are proud of who we are, what we do, and how we do it. All over the world, in each subsidiary, in each team, we work united by this same conviction.

We are Roche.
