Your team

As a Senior Product Analyst SAP Integration, you'll join the Product Development organization. Product Development consists of specialized teams that focus on a specific domain such as demand and supply planning, user experience, data science, integration, solvers, and more. These teams drive our product road map, share OMP's vision and expertise and create smart, robust, and scalable software solutions that solve our customers' complex supply chain planning challenges.

Your profile

We are looking for someone who meets the following qualifications:

A Master or PhD in Engineering, Business Administration, Applied Economics, Mathematics, Computer Science, or similar.

Proven experience in supply chain planning in SAP, specifically SAP PP, PP/PI, and/or MM.

At least 5 years of experience as a business, product, or functional analyst in an agile environment.

Great analytical skills and problem-solving abilities.

Keen to translate real-life challenges into workable, supportable software models given a set of constraints and requirements.

Strong affinity with IT systems.

The skills to conceive and develop documentation.

A desire to take ownership of your work.

The ability to master the details while keeping a global overview.

Comfortable at working under pressure, even with firm deadlines.

Bonus points if you have:

Willingness to learn and understand non-SAP functionality (e.g. OMP, Azure).

Prior experience in one of our core industries.

Basic programming skills.

But most of all, you are fun to work with and a great team player!
