Graphic Designer

Apply Now

Company: BESIX RED

Location: Belgium

Category: computer-and-mathematical

Job Description

Collaborate with clients, managers, and external agencies and designers to understand the project goals and requirements.

Ability to manage several projects of different kinds (brochures, logotypes, workpanels, corporate movies)→ project management experience

Develop design concepts that match the brief and the desired style and tone

Create original graphics using various software and tools, such as Adobe Photoshop, Illustrator, and InDesign

Master Powerpoint for corporate presentations from a design perspective

Present design options to clients (defend the best ideas) and incorporate feedback and revisions

Ensure that the final graphics are consistent, high-quality, and meet the specifications and deadlines

Stay updated on the latest design trends, techniques, and best practices

Qualifications

A bachelor's degree in graphic design, visual arts, or a related field, or equivalent work experience

A portfolio of previous graphic design work that demonstrates creativity and proficiency

Proficiency in graphic design software and tools, such as Adobe Photoshop, Illustrator and InDesign

Proficiency in PowerPoint (or other presentation tools)

Knowledge of design principles, such as typography, color, layout, and composition

Ability to work independently and collaboratively in a fast-paced environment
