## Hyperautomation Consultant

SAP, finance, some experience, consultant Belgium share on

Are you the kind of person who sees the world in **processes** ?

And do you often think about how these processes could be **optimized** and **automated** ?

In other words, do you sometimes ponder about **more effective ways** of brushing your teeth or how you could automate the mundane tasks within a finance department at a multinational corporation?

If so, you could be a natural born **automation consultant**

**Apply for Hyperautomation Consultant!**

**Thank you for your application.**

**We will get back in touch with you soon! Have a great day!**

read our stories

### Who are we?

We are the Low Code & automation team at delaware: a young, dynamic team of consultants who live and breathe automation. We take great joy and pride in getting the “robot out of the human”. There’s little value in having people repeat the same mundane tasks that can just as well be done by a soft bot. Better even: all that freed up time can be used for more

value adding activities.

Our team has doubled over the past 2 years and we expect at least the same growth for the coming years. So you're sure to find a lot of interesting projects as well as plenty of career path opportunities.
