## Identity and Access Management Consultant

Microsoft, cloud & infrastructure, some experience, developer Belgium share on

You combine your experience and passion to **create cloud solutions** with the hands-on and flexible attitude to **advise on and realize business projects**. As an identity consultant, you stay **involved and engaged** in each project and take **ownership of the identity & access management part**. You love to show of your **cloud engineering skills** as you design, implement and support the solutions built for our customers, and develop IAM solutions for their B2B and B2C audiences.

You are **ambitious** and eager to take on a varied range of projects. You are **keen on growing and diversifying your cloud engineering skills** while working mostly autonomously on your projects. You are **committed to expand your knowledge** by staying up-to-date on the latest technologies in your field and **mentoring** your less-experienced colleagues to help our team grow further.

**Apply for Identity and Access Management Consultant!**

**Thank you for your application.**

**We will get back in touch with you soon! Have a great day!**

read our stories

## Who are we?

We are the **Core meets cloud** team, and we embrace **both Microsoft and SAP cloud technologies** as we implement business applications and custom solutions. Every business application needs to be integrated into the **identity & access management** strategy of the customer in a uniform way for all apps. Furthermore we modernize the identity platform of the customer from an on premises to cloud landscape or we integrate the ecosystems of Microsoft and SAP.

We exist to make sure developers focus on development, while we **setup & maintain the cloud platform**. Secondly, we ensure **productive and secure workplace for our customers**. Our biggest challenge is to keep up with the fast pace of cloud innovation. Our trademark is working on **innovative projects**. We already set up the largest Azure PaaS platform in Belgium and realized a cloud migration that even Microsoft did not believe in. Just so you know: delaware has its offices in **Antwerp, Ghent, Kortrijk, Lummen, Liège** and **Wavre**, but we also spend a lot of time working together with our customers **site**.
