[Apply Now](#)

Company: Euroclear

Location: Belgium

Category: other-general

Division : Technology Management Services (TMS)

Technology Management Services (TMS- aka CIO Office) is one of the 6 Technology divisions. TMS value proposition is articulated to act as a trusted advisor for IT Divisions, playing a key role to deliver and sustain the IT transformation.

The division strives to provide consistent processes that are aligned with market standard methodologies along the following four service offerings:

Strategic Sourcing

Demand & Capacity

Organizational Development

Transformation

The Tribe

The Strategic Sourcing Tribe focuses on the IT partners such as strategic Outsourcing partners & Contractor Agencies and Technology vendors, to increase quality of service, performance and bring in best value from providers to IT.

The Strategic Sourcing Tribe performs a centralized role within IT with the key focus/responsibility for

IT sourcing strategy

new IT sourcing initiatives and negotiation of contracts

contract management.

strategic relationships management

performance management

vendor first line risk management & regulatory compliance

IT Sourcing Strategy is a multi-cultural team, with diversified background spanning across delivery, infrastructure & security, sourcing & vendor management, purchasing, service provider, legal, product management.

Description

The Strategic Sourcing Tribe is seeking an IT Business Consulting Advisor in the 'Outsourcing & Contractor Agencies' Squad, who will work, in conjunction with IT delivery teams, on IT sourcing strategy and on new IT outsourcing initiatives. Success in this role will require collaboration, communication skills and experience in handling internal and external stakeholders at Executive level.

Role

As an IT Business Consulting Advisor, you will work on new outsourcing initiatives (linked to Investment themes), in line with regulatory requirements, and Euroclear Policy Handbook

follow up key outsourced projects, by working with the IT and non-IT stakeholders (such as Compliance, Legal, Risk Management & Supply Chain) across Euroclear & the partners.

ensure the services delivered by the partners across domains, technologies & divisions are fit-for-purpose, meet encouraged quality standards, bring in value for money, and of low/calculated risk.

assist involved parties to maintain providers' operating models compliant to required evolutions while sustaining an appropriate performance & relationship management.

You know how to

run project streams and perform key activities with a consulting demeanor.

build and maintain business relationships with people across different divisions inside and outside of Euroclear.

deal with cross-cultural differences.

connect with technical project and infrastructure teams.

run risks assessments.

lead projects and work with service providers in an outsourcing model.

build, negotiate, and handle relationships with global vendors and incorporating multiple delivery/projects experience.

You have

A project management experience or SPVM experience of 10 years minimum

A good understanding of Agile methodology

A good understanding of Euroclear risk framework

A cause and effect thinking to identify risk and opportunity areas.

A constructive challenger & make thing happen mind-set.

Good standout colleague with a collaborative spirit & a positive mind-set

The ability to deal with multi-functionally, cross-regionally, and cross-cultural differences.

A magical experience in working/managing a multi-stakeholder's environment.

Superb communication skills in English (talking, writing, and communicating)

Influencing and relationship building skills, at Executive level

A flexible demeanor and ability to perform in an exciting & fast paced environment.

The ability to put yourself in the customer's shoes.

Service delivery management experience / Experience in an offshoring context which will be two assets.

An understanding of the financial post trade industry that can be useful.

Furthermore you:

are committed to continuous process improvement.

are open & encouraging of a redefining environment towards our Target Operating Model, with reassessing priorities when required.

are autonomous and self-organized.

are proactive to find solutions to problems that occur.

are credible and know how to deal with critical information.
