IT/OT Engineer

IT/OT Network Engineer

We are looking for an experienced engineer with a strong background in in the field IT/OT.

Who are we?

At PA Solutions, you become part of a fast growing company that is the ideal partner for tailor-made automation solutions in various sectors such as pharmaceuticals, chemistry, life sciences, and more. Here, we explore innovative paths to success together with our clients!

Responsibilities:

Analyze incidents and problems for clients

Offer solutions-oriented advice for IT/OT infrastructure (routers, switches, firewalls, servers, controllers, MES applications)

Ensure maximum uptime through installation and configuration of software/hardware

Provide and prepare necessary documentation

Manage updates and patches for various platforms

Offer all-round support to end users on-site or via remote support for OT Shared

Services customers

Provide technical support to business consultants

Act as a proactive Single Point of Contact (SPOC) for the organization

Identify opportunities and communicate them to business consultants for follow-up

Requirements:

You have a professional bachelor's degree in IT or equivalent through experience

You have at least 2 years of experience in executing IT projects in an industrial environment

You have experience with and knowledge of/about: Network architectures (configuration of routers, switches, firewalls, ... from well known suppliers such as: Cisco) Software development tools (For example: PowerShell, .NET, Python, PHP) Functional basic knowledge of (industrial) communication protocols (Ethernet, OPC,...) All-round knowledge of Windows based environments (servers, Active Directory, Office ,...) Familiar with virtual environments (Cloud, VMware)

You are a pragmatic analyst/technician who is result-oriented

You are eager to learn, both on a technical level and in terms of personal competencies

You have a valid driver's license

You are a fluent communicator and are able to explain things in a simple way to a layman

Location:

Our offices in Belgium are based in Melsele and Antwerpen-Berchem. Here, you will be part of a dynamic and innovative team.

We offer:

A competitive salary

A company car (full electric)

Meal vouchers

Insurance

Company events and teambuildings

Flexible work hours

32 vacation days

A challenging and responsible position within a leading company

Opportunities for professional development and growth

Application process
