IT Project Manager - Manufacturing

Entity: Daikin Europe HQ Job Category: Information Technology Solutions Location: Oostkamp, West Flanders, BE

Job Requisition ID: 206

Our IT Centre EMEA counts 3 departments: IT Planning (PLAN), IT Development (BUILD) and IT Infrastructure (RUN). Within our IT Development department, we can distinguish 2 competence centres: Madrid and Oostkamp.

You will be part **IT Development in Oostkamp**.

The IT Development department in Belgium consists of 20 internal colleagues strengthened with external consultants and an offshore team. The group is young and dynamic with a good team spirit and open communication structure. We implement innovative IT solutions for our 7500+ Daikin colleagues all over Europe & Middle East.

In view of the growth of the IT Development-team in the Belgian branch in Oostkamp, we are looking forward to welcome an enthusiastic Functional Analyst within a centralized European **SAP environment** that we successfully migrated **S4HANA**. In collaboration with all stakeholders from business, this team will manage projects, develop improvement proposals and implement change requests.

Job content

We are looking for **Junior IT Project Manager** to coordinate, structure, improve and promote our **Manufacturing processes** throughout our entire EMEA company.

Within our EMEA company, we have **5 DX/Heating Factories** in Ostend (Belgium),

Pilsen and Brno (Czech Republic), in G\u00fcglingen (Germany) and Hendek (Turkey); and **4 refrigeration factories** situated in Italy, UK, Spain and Austria. After a training period accompanied by the company value guidelines, your main challenges will be:

Diving into our **SMART Factory** goals and get a comprehensive understanding of our current landscape. We have:

SAP S/4HANA with main focus on:

Production Planning, MRP, Kanban & Shop Floor Control

Inventory Management

Quality Management

Warehouse Management

Siemens **Teamcenter** as Product Lifecycle Management (PLM) tool

our new (Daikin-customized) **Smart Factory Management System** (Microsoft Platform)

Acting as the project lead of different (international) projects within the **Manufacturing** area. You will be involved in projects across EMEA focussing on standardization, uniformization across factories and innovative initiatives in view of smart factory improvements.

Coordinating, analysing & implementing improvement requests your area of expertise in close cooperation with your business peers, internal IT colleagues and our offshore team. This with a critical, though constructive mindset taking best practices and standardization into account. Although we hand-over live projects to our RUN team, assistance in 3rd line IT support is sometimes required.

You will follow-up and explore the future evolutions in view of **enabling SMART factories** You will think about our strategy and assist in translating this into a **roadmaps** . During this process, you will need to study and **drive innovation**

Together with your colleagues, we see you as the main driver to digitalize and improve our Manufacturing processes in an EMEA context.

Profile

You have a **master degree** as economist, engineer, computer scientist or equal.

You have **5+ experience** in a similar IT-surrounding.

You have a **analytical & innovative spirit** and interest in our company's need to grow & accelerate.

You are pragmatic and have a strong interest in **recent IT evolutions** and technologies.

You have a solution oriented mind-set and a drive to continuously improve your area.

You have the necessary self-discipline to make and follow-up a planning.

You are a team player and try to establish and keep a good relationship with both your IT and business colleagues.

You have good **communication skills** and are not afraid to present to groups.

You are prepared to occasionally **travel** to Daikin group companies in EMEA.

You have a very good knowledge of English and Dutch.

Our offer

At Daikin you can count on a varied job, with an international market leader which encourages people to work together and develop. We can offer you a permanent contract. From the very beginning you can count on thorough training and intensive support. Your competitive salary is complemented by a package of extra-legal benefits. Colleagues get the possibility to work from home 2 days every week.
