Company: Euroclear

Location: Belgium

Category: computer-and-mathematical

Division: Chief Information Security Office (CISO)

As a global financial market infrastructure, the protection of Euroclear information and assets is fundamental to the company's business. Security is at the core of our services, firmly embedded in the management systems and processes of the company.

Euroclear's mission is to reduce risk, provide liquidity and offer trusted post-trade securities services to its customers within financial services. Euroclear operates as an (I)CSD offering core post-trade securities services to its customers - securities settlement, collateral management, corporate actions, funds, and securities issuance.

As a group, Euroclear consists of six domestic securities CSDs and one international ICSD. These entities are served by Euroclear SA which acts as the parent, sets strategy and policies, provides shared IT services, and ensures that effective controls are in place to manage risk.

Euroclear plays a significant role as a major European Financial Market Infrastructure (54% of EU Equities and 63% of EU Bonds) and has been designated by Oversight as a 'Systemically Important Financial Institution' (SIFI).

IT and Cyber Risk Team

Aligning with the overall corporate mission of being a 'trusted Financial Market Infrastructure', the 'IT and Cyber Risk' team within CISO Division provides several services that aim to:

Ensure 'end-to-end' management of risks by identifying IT, information security or cyber risks or deficiencies.

Ensure root cause issues and risks are structurally remediated through sustainable controls

and ensure reduce risk exposure through increased control maturity.

Ensure risk exposure is in line with the risk appetite of the firm.

Ensure regulatory compliance is evidenced.

Ensure accountability, ownership and risk culture is embed within first line.
