

Junior Data & Analytics Consultant (sector focus: Financial Services)

[Apply Now](#)

Company: EY

Location: Belgium

Category: computer-and-mathematical

Are you passionate about delivering business value out of data, leveraging Big Data and Advanced Analytics technics and technologies (e.g. Machine learning, Artificial Intelligence)? Would you like to help our clients in Financial Services in solving their most complex and large-scale Data & Analytics challenges?

At EY, we have a strong and dynamic Data & Analytics business practice, made of passionate, motivated and dedicated professionals who work closely with colleagues from other departments, in domains such as risk management, business optimization, digital transformation and customer experience, to deliver high value and tangible results to our clients.

As a future Data & Analytics Consultant, you will help our clients in the following domains:

Reporting, business intelligence and data science models embedded in core business processes and applications

Assessment and improvement of the company's data capabilities (data strategy, data governance, data quality, data architecture, data management, data usage)

Design and delivery of modern(ized) data architectures, data warehousing, data integration or data migration.

Your key responsibilities

You will learn all you need to know about the different Data & Analytics topics (i.e.: reporting, BI, data science, data strategy, etc.)

You collect and analyze business and IT requirements in scope of the delivery lifecycle of our Data & Analytics projects

You contribute to the setup and implementation of the “data-driven” roles and responsibilities, policies and processes within our clients’ organization in line with their data strategy, their maturity and their company culture

You participate to the design and improvement of components of a target data architecture: enterprise data model, data profiling, data integrity controls, data integration flows, setup of new (big) data technology, data migration plan and execution

You collaborate with experienced data engineers and Business Intelligence experts to deliver modern data platforms (data warehouses, data lakes, etc.)

You collaborate with experienced data scientists to prepare, develop and evaluate advanced analytics models and deploy them in robotized business processes

You help create and implement dynamic dashboards and reports in line with effective information communication guidelines

You act as a first-line contact for a variety of top-class financial services clients and maintain an excellent relationship with our clients.

Who are we looking for?

A Master’s Degree in Economics, (Business) Engineering, Sciences, IT, Computer Sciences or Statistics

Strong affinity with, and interest in new trends in Big Data & Advanced Analytics and in Digital transformation

Fluency in Dutch and/or French, with a proficient level of business English

Strong team spirit, balanced by a healthy sense of autonomy

A keen interest to learn more about the Financial Services market in Belgium and beyond

Knowledge of relational databases, SQL, Python, R or equivalent data programming languages and the Office tools are a strong asset.

What's in it for you?

Support and coaching from some of the most engaging colleagues around

Opportunities to develop new skills and progress your career

The freedom and flexibility to handle your role in a way that's right for you

We are proud of our flexible working arrangements, and we will support you to build a successful career and deliver excellent client service, without sacrificing your personal priorities. While our client-facing profession might require regular travel, and at times working at client sites, we are committed to help you achieve a lifestyle balance.

At EY we are passionate about the inclusion and support of individuals of all groups; we do not discriminate on the basis of race, religion, gender, sexual orientation, or disability status.

About EY

As a global leader in assurance, tax, transaction and advisory services, we hire and develop the most passionate people in their field to help build a better working world. This starts with a culture that believes in giving you the training, opportunities and creative freedom to make things better. The exceptional EY experience. It's yours to build.

About EY Financial Services

EY is the only major professional services firm with a dedicated financial services practice (the Financial Services Organization, FSO) integrated in the EMEIA region. An international team of over 11000 professionals are working across borders for our clients in the financial sector: Banking, Insurance and Asset Management, in all service lines: Consulting, Tax, Strategy and Assurance.

Join us in building a better working world. Apply today.
