Junior Developer

Apply Now

Company: Ferranti Computer Systems

Location: Belgium

Category: business-and-financial-operations

Function description

Are you a **young graduate** and passionate about development with a focus on the back-end? Are you looking for a team that can challenge you, support you and make sure you grow at your own pace? **Together is better**! At Ferranti you work on exciting projects together **with your Ferranti team** . Do you prefer international projects or closer to home? Together with your team, you build technical modifications, integrations and extensions to the MECOMS solution. There are **opportunities** in different technologies so **you are in control of your career and personal growth** . For instance C# or .Net Core 6 or MS Dynamics 365 or jQuery or Javascript or Docker or Kubernetes, … or work on an Azure based platform, with the latest Microsoft applications.

Your main tasks and responsibilities could be:

Develop, test and release modifications & extensions, data migration & system integrations

Understand the customer's needs and the business requirements

Write technical design documents and make accurate estimations

Clear pending issues in an efficient way

Profile

A good fit with the company is the most important for us. If there's a match, we will shape your role in line with your talents and experience, within our project or product division or a combination of both.

You have a **bachelor degree** in (applied) informatics or electronics/ICT or computer science etc., or you will graduate soon.

Very good knowledge of Dutch & English; knowledge of other languages is a plus

You have a passion for development with a strong interest in **back-end development**

You are a dynamic **team player** with great sense of responsibility and good communication skills

Very **eager to learn** new technologies

Flexible and willing to travel to clients within Belgium & the Netherlands. If you like to travel abroad, we can offer you international projects to work on

We offer

An **extensive training program** by our Ferranti knowledge center, tailored to the needs of a yound graduate

Support by a personal **coach** and a buddy, so you can grow at your own pace

The possibility and freedom to work on **international** projects

A good **work-life** balance in a team culture that is based on trust

Real **career opportunities** : do you want to become a technical expert or rather grow towards a more functional role, **that's up to you**!
