## Junior ERP Software Developer (September )

Microsoft, software development, no experience, developer Belgium share on

**Please note we have filled this position for , but we are accepting applications for future openings in .**

“On my current project at Poppies, we’re implementing an entirely new ERP system. I’m responsible for the quality of developments before they make their way to the quality and production system. In addition, I advise functional and technical colleagues, based on the latest best practices and standards. As lead developer, I also occasionally deal with more tedious bugs and developments. This way, we can create the best solution for our client.” —

Brecht Heldens

As a Junior ERP Software Developer, you’ll take on the role of **technical consultant** , meaning that you’ll be supporting our projects from start to finish, from analysis to implementation and support. Your focus will be on software development of SAP and Microsoft solutions, which will feel like coming home thanks to your deep knowledge of IT. But there’s more: the **consultancy** element means that you’ll collaborate closely with our customers. You’ll learn to understand their needs and come up with customized technological solutions that work for their business.

Prepare yourself for an interesting journey, working on exciting projects for a broad range of companies and industries! This has multiple benefits, including a **steep learning curve** and the opportunity to work with **innovative technologies**.

**Apply for Junior ERP Software Developer (September )!**

**Thank you for your application.**

**We will get back in touch with you soon! Have a great day!**

read our stories

**What team will you be part of?**

Whatever form of software development you prefer, you'll find your niche on our **ERP Development teams**.

Our **SAP Development team** works on projects with technologies ranging from **RPA, Kyma, and AI** to more classic developments like **Java, NodeJS**, etc. In addition, we also specialize in S/4HANA full-stack developments with **ABAP** (a proprietary programming language), **UI5** (a JavaScript framework), and **RAP** for more classic implementations.

More into Microsoft? Our **Dynamics Development team** specializes in full-stack developments with **X++** (a .NET related language) within the context of **cloud** features like **Flow, PowerBI, IoT, Logic Apps**, etc.

in Antwerp, Ghent, Kortrijk, Liège, Lummen, and Wavre, but as a consultant, you'll sometimes find yourself **on-site** with our customers as well. We offer flexible hours, and we'll find the perfect balance together.

Prepare to launch your career like a rocket! At delaware, you'll enjoy in Belgium and beyond. We'll provide you with every single day. If you're motivated, the sky really is the limit.
