## Junior .NET Software Developer (September )

Microsoft, software development, no experience, developer Belgium share on

**Please note we have filled this position for , but we are accepting applications for future openings in .**

“I started as a junior IT consultant on the **Single Source of Truth team** in September. My project for Etex Group is fascinating. I’ve had the opportunity to implement **back-end systems** for their enormous websites and integrate them with other software. Additionally, we’ve worked on a fire protection website/app that we had to implement from scratch.

This included **SQL** statements, stored procedures, importing it all into **C#**, creating a REST API , writing validators, and writing some front-end for another app. After signing my contract I still had some doubts about whether I had made the right choice. Now that I’ve been working here for a few months, I’m absolutely sure that I did!” — Sibian De Gussem

As a Junior .NET Software Developer, you’ll take on the role of **technical consultant** , meaning that you’ll be supporting our projects from start to finish, from analysis to implementation and support. Your focus will be on **.NET full-stack and/or back-end development** , which will feel like coming home thanks to your deep knowledge of IT.

But there’s more: the **consultancy** element means that you’ll collaborate closely with our

customers. You'll learn to understand their needs and come up with customized technological solutions that work for their business.

Prepare yourself for an interesting journey, working on exciting projects for a broad range of companies and industries! This has multiple benefits, including a **steep learning curve** and the opportunity to work with **innovative technologies**.

**Apply for Junior .NET Software Developer (September )!**

**Thank you for your application.**

**We will get back in touch with you soon! Have a great day!**

**What team will you be part of?**

Whatever form of software development you prefer, you'll find your niche on our **.NET development teams**.

If you have a passion for **data** you might like our Single Source of Truth team since it combines database management with back-end development in **C#**. Our Dynamics Customer Engagement team, on the other hand, focuses on full-stack development within **CRM systems**, using **C#, JavaScript, and TypeScript**. Last but not least is our Engage team, which specializes in developing .NET solutions for our Microsoft offerings. We're sure you'll find your fit!

We work where we work best, when we work best. delaware has its offices in Antwerp, Ghent, Kortrijk, Liège, Lummen, and Wavre, but as a consultant, you'll sometimes find yourself **on-site** with our customers as well. We offer flexible hours, and we'll find the perfect balance together.

Prepare to launch your career like a rocket! At delaware, you'll enjoy an attractive salary package and be part of one of the most exciting workplaces in Belgium and beyond. We'll provide you with intensive training and onboarding and we'll invest in your growth every single day. If you're motivated, the sky really is the limit.
