Junior Supply Chain Consultant

supply chain & operations, no experience, consultant Belgium share on

Please note we have filled this position for , but we are accepting applications for future openings in .

“As a business analyst on the Supply Chain Transformation team, I support our customers’ operational management teams by identifying gaps and opportunities within their business model. These are then leveraged to increase their overall business performance. But to carry out this analysis, I first need to understand the client's business processes and link them to the industry’s best practices. The improvements often involve the implementation of technology, such as robotics, scanners, or IT solutions. Sustainability is also becoming a key topic, which is what my colleague Anush Egjian is currently focusing on.” — Fabio Conte

Like Fabio, you'll be focusing on transforming your customers’ processes. Your focus will be on the business side of things, where you’ll be able to combine your **deep knowledge of (the trends in) supply chain management** and your **customer-centric approach** .

Prepare yourself for an interesting journey, working on exciting projects for a broad range

of companies and industries!

Apply for Junior Supply Chain Consultant!

Thank you for your application.

We will get back in touch with you soon! Have a great day!
