

Junior Technology Consultant - Digital Risk (September 2024) (Technical profile)

[Apply Now](#)

Company: KPMG

Location: Brussel

Category: computer-and-mathematical

Position description

Job title

Junior Technology Consultant - Digital Risk (September 2024) (Technical profile)

Function

Advisory - Junior Advisor

Roles & Responsibilities

Are you a tech graduate who wants to:

make use of the newest technologies and tools;

make applications, networks and systems hacker-proof;

work with a young and fun team?

What are you waiting for? You're a perfect match for our Digital Risk team!

You will:

work on cyber security engagements;

work with and recognize common attacker tools, tactics, and procedures;

develop new testing methods and techniques to identify vulnerabilities and entry points that attackers may use to exploit applications, networks, and systems;

keep up to date on the topic of data protection and GDPR;

help clients to monitoring processes, tools and controls to protect personal data;

build and manage excellent client relationships;

help to coach and train team members to grow the team's knowledge.

We promise to:

help you become a cyber expert in your area of interest;

teach you something new every day (think of certifications, internal/external webinars, case studies, training, community and other resources);

involve you in large projects with international customers;

stimulate your entrepreneurship and help you take ownership.

Start date : September 2024

Location : Antwerp or Zaventem

Location

Zaventem HQ

Skills & Qualifications

We are looking for candidates who are passionate about Cyber Security.

You have a Master's or Bachelor's degree in:

Handelsingenieur Beleidsinformatica/Master of Business and Information Systems

Engineering or an equivalent;

economics or business studies but with a specialization or practical experience in cyber security.

While academic qualifications are important, we also value:

an interest in how data & technology can transform and improve business processes;

an interest in technical cyber security topics (e.g. network security, penetration testing,

incident response, OT security);

an interest in data protection topics spanning from the more technical ones (e.g. encryption, access rights, etc.) to the more legal ones (such as GDPR);

enthusiasm about working in a project-based environment;

eagerness to learn and make an impact;

strong communication skills in English and in Dutch or French.

We offer

At KPMG, we commit ourselves to encouraging true team spirit and creating an international and dynamic working environment in which each can pursue the knowledge needed to boost their career. Additionally, we highly invest in our people's development of soft skills and technical knowhow.

We also offer:

An inclusive workspace that encourages diversity and pursues mutual respect and tolerance for each other's beliefs and background.

A competitive and attractive compensation package with extra legal advantages (mobility budget or lease car, laptop, iPhone/iPad device, insurance package...)

A flexible, hybrid working schedule where employees can work on different locations: at home, at the office, on the go or at a client's site.

A wide range of teambuilding activities and social events (e.g. afterwork drinks, network evenings, annual national receptions, etc.) that enable new joiners to meet colleagues within the wider KPMG community and have some fun along the way.

A comprehensive well-being programme that includes hospitalization insurance and several initiatives that focus on mental health.
