Lead Consultant - PEGA LSA - Belgium

Lead Consultant

117809BR

Job Description

Role : Lead Consultant

Technology : PEGA LSA

Location : Belgium

Compensation: Competitive (including bonus)

Job Description:

Today, the corporate landscape is dynamic and the world ahead is full of possibilities! None of the amazing things we do at Infosys would be possible without an equally amazing culture, the environment where ideas can flourish and where you are empowered to move forward as far as your ideas will take you.

At Infosys, we assure that your career will never stand still, we will inspire you to build what's next and we will navigate further together. Our journey of learnability, values and trusted relationships with our clients continue to be the cornerstones of our organization and these values are upheld only because of our people.

Your role:

As a Lead Consultant, you are an expert at contributing to different phases of the consulting lifecycle. You will be intensely involved in; you will define the problem, propose and refine the solution. You will also play an important role in the development, configuration and deployment of the overall solution. You will guide teams on project processes, deliverables and contribute to the proposal development, client training and internal capability-building and help detail the project scope. You will have the opportunity to shape value-adding consulting solutions that enable our clients to meet the changing needs of the global landscape.

Required:

Experience in technology consulting, enterprise and solutions architecture.

Hands on experience in application development and in Pega PRPC v5.x/v6.x/v7.x and Pega frameworks.

Should be certified CLSA(Part 1&2) in Pega PRPC v6.x/v7.x.

Generating innovative ideas for Client Problem using BPM solution-Part of Automation assignments.

Good understanding of Business Process and ability to prepare design documents and provide technical effort estimate.

Experience in either J2EE (JSP, Servlets, EJB, XML, Java), web development (JSP/JavaScript/CSS), .Net. Develops and demonstrates an advanced knowledge of the PRPC Architecture and all PRPC design and implementation features.

Accountable for ensuring the business and technical architecture of the delivered solution matches customer technical requirements.

Experience and desire to work in a management consulting environment that requires regular travel.

About Us

Infosys is a global leader in next-generation digital services and consulting. We enable clients in 46 countries to navigate their digital transformation.

With over three decades of experience in managing the systems and workings of global enterprises, we expertly steer our clients through their digital journey. We do it by enabling the enterprise with an AI-powered core that helps prioritize the execution of change. We also empower the business with agile digital at scale to deliver unprecedented levels of performance and customer delight. Our always-on learning agenda drives their continuous improvement through building and transferring digital skills, expertise, and ideas from our innovation ecosystem.

“All aspects of employment at Infosys are based on merit, competence and performance. We are committed to embracing diversity and creating an inclusive environment for all employees. Infosys is proud to be an equal opportunity employer.”
