

## Lead Field Service Technician (Fire & Security - Antwerp/Brussels)

[Apply Now](#)

Company: Honeywell

Location: Machelen

Category: computer-and-mathematical

Honeywell Building Technologies creates products, software and technology that can be found in more than 10 million buildings worldwide. Building owners and occupants use our technology to make their facilities safe, energy-efficient, sustainable and productive.

The Fire & Security division is active in Belgium as a security integrator and offers products and services for fire detection, video detection, access control and intrusion detection. Honeywell Fire & Security is active in the B2B market with a focus on industry, banks, utilities, administrative institutions, healthcare and logistics companies.

In the context of the further growth of our project department, we are looking for motivated candidates with an A2 TSO diploma or Bachelor's degree in Electromechanics, Electronics or Electricity.

Experience in the field of software and/or hardware of safety systems or with their installation is certainly an added value.

### **Work:**

Configuration and commissioning of new safety systems, possibly in collaboration with subcontractor(s).

Installation work on new installations, under the supervision of the project manager.

Preventive maintenance and periodic maintenance of existing installations.

Supervising installation inspections together with a recognized inspection body

Interventions on existing installations

Programming/customizing the management software based on the customer specifications

Management of installation technical documents

On-site training and advice to customers on the operation of their safety systems

You will report to the Field Service Leader

**Profile:**

You have an A2 TSO or a Bachelor's degree in Electronics, Electricity, Electromechanics or you are in possession of a diploma in steering and security techniques.

First relevant experience in the security sector is a plus, knowledge of electronics and ICT is required.

You can work in a team as well as independently.

You are eager to learn

You are customer-oriented and have excellent communication skills

Our working language is Dutch, but you also need to understand English. French is a plus.

Ideally, you live in the broad East/West Flanders region

You are in possession of a valid driver's license

**Offer:**

The position of Fire & Security Automation Service Technician offers a lot of variety and

gives you the opportunity to develop your skills within a renowned company like Honeywell. You will spend most of your time with the clients and a small part in our office in Kortrijk. We offer a competitive salary with attractive extra-legal benefits, including a company car with fuel card.
