

Mainframe Framework Analyst/Programmer

[Apply Now](#)

Company: Euroclear

Location: Belgium

Category: computer-and-mathematical

Division: Group Technology Services (GTS)

Your team:

The Mainframe Engineering team provides the end to end support for Euroclear's computational powerhouse: The mainframe machines. Become one of the experts who control these powerful machines that keep the financial world running!

Our team's services comprise system administration, database administration and middleware support as well as ensuring Mainframe security.

Your role:

As Mainframe Framework Analyst/Programmer you will maintain and write Framework programs. These are the Mainframe programs that are used in common by all the application programs

Your responsibilities will include:

Support existing Framework CICS/MQ/DB2 programs written in **PL/1 & Cobol**

Write new Framework CICS/MQ/DB2 programs in **PL/1**

Write new Framework programs in **Java**

Write new Framework programs in **Python**

Support of these programming languages: **PL/1 Java Python Cobol**

Solve complex problems/bugs with programming languages

Support clients with CICS Web Services

Support Development/Testing teams

Please note this role could include occasional weekend work and Watch Duty on-call support outside business hours assigned on a rotational basis.

The required skills:

Advanced experience developing on the **Mainframe**(JCL, SDSF, Mainframe languages, Compilation options)

Advanced experience with programming in **PL/1 - CICS – MQ - DB2**

Experience with **Java, Cobol, Python**

Good understanding of the internal of CICS

Good understanding of the internal of MQ

Good development skills in TSO/ISPF/Rexx

Able to debug program dump

Experience with application performance issues in a DB2/CICS/MQ environment

Agile/Scrum ceremonies and practices

Team player

Problem solving and lateral thinking mind-set

Good written and verbal communication skills in English

Strong interpersonal skills to work in a high availability environment

Eager to document and improve processes

Nice to have:

Experience with z/OS Connect, RestAPI, ZOWE, SOAP, Eclipse, Visual Studio Code

Experience with Debugging tools and IBM Application Performance Analyzer
